CORPORATE REGATTAS

Catering specifically for the complete novice, Sailactive corporate regattas offer unique and invigorating team building and corporate hospitality events against the magnificent backdrop of Table Mountain and the V&A Waterfront. For over four years Sailactive has provided tailor-made corporate events for local and international companies. Our client list includes ABN AMRO, RMB, Investec, Pick 'n Pay, Roche (UK), Cybervision (USA) Sony (Spain) and Boehringer Ingelheim (Spain) among others.

Corporate Hospitality and Team Building with a Difference

Sailactive corporate regattas offer the opportunity for companies to connect with clients and colleagues through a truly unique form of corporate hospitality. Sailing regattas create a platform to build stronger relationships between management and staff, to motivate sales teams and to achieve deeper understanding and greater trust between colleagues.

You will discover that extraordinary things happen when you put co-workers together as team members on a yacht in search of optimum performance. Not only do they learn a new skill (how to sail and race a yacht), but they also learn how to communicate, collaborate and work better together as a team.

A Typical Corporate Regatta

Sailactive regattas can be hosted as either a morning or afternoon activity (+/- 3 hours) and would comprise a fleet of similar 34-40 foot yachts, as well as committee and safety vessels.

Departing from the Cape Town yacht basin, your corporate crews will be allocated to competing yachts in groups of six to seven crew members. Sailactive provides experienced skippers and crew for each yacht who will take the corporate crew members through comprehensive on-board safety briefings as well as yacht handling and race procedures. Hands-on sail training is provided with skippers and crew demonstrating basic sailing techniques and allocating roles and responsibilities to your corporate crew.

The teams will have some practice time in Table Bay followed by a minimum of 3 20-30 minute races (depending on weather conditions). If conditions are favourable we'll have additional activity, such as cruising or a longer race. Sailactive skippers and crew encourage participation from your corporate crew members, ensuring that each person enjoys themselves whilst learning a great new skill.

Although this is a typical Sailactive Regatta other sailing options are also available and we would welcome the opportunity to work through your complete requirements and build a meaningful and fun event to suit your specific needs.

Your Safety Is Our Priority

Keel boats are extremely safe yachts and many of the ones used in our regattas have undertaken ocean crossings (such as the Cape to Rio race) and others have undertaken around the world voyages. Sailactive provides a keel boat or a catamaran as a committee vessel to oversee the regatta as well as a twin-engine semi-rigid inflatable which serves as an additional safety vessel. Each yacht carries regulated safety equipment and is in constant radio communication with the race committee vessel, other yachts and Port Control.

Our professional skippers are all qualified as per South African Maritime Safety Authority (SAMSA)/South African Sailing (SAS) regulations. Many of our skippers have completed numerous ocean crossings and some have represented their province, South Africa and the America's cup team.

Sailactive events are normally staged close to the harbour and the shoreline. This creates a sense of security for non-sailors as well as a close-up look at the coastline and the best perspective of the magnificence of Table Mountain ... not achievable on-shore.

Bookings Are Essential

To find out how we can tailor-make a great corporate yachting event for you, email us on info@sailactive.com. Or phone Dominic or Miles on +27 (0)72 476 6188. Visit our website at www.sailactive.com.
